Change to grow

The attention of MEC SPE towards exhibiting companies is also tangible in its courage to make important decisions, like moving the exhibition venue to the Bologna exhibition centre.

Mecspe, the reference exhibition event for the manufacturing industry and the smart factory, sets clear targets for growth, development and improvement in the search for new international opportunities that will involve all exhibitors and professionals from Italy and beyond.

Over time such a deeply-rooted spirit of collaboration shall open all the doors leading onto increasingly better results and within less time.

Special initiatives

THE HEART OF THE EXHIBITION: THE FACTORY WITH NOT LIMITS

With its centrepiece exhibition, Mecspe is a veritable incubator and driver of innovative solutions for the manufacturing industry.
